No. 92

## HABITATIONS SPRING UP IN RAMSEY

Ramsey is a wonder. Of the forty or fifty men that went out to Ramsey Saturday and Sunday and returned last night, not one can be found who does not think that the surface showing in the new district is the greatest in the state.

By surface showings in this instance it means actual ore in sight on which no work has been done. Such is the formation at Ramsey that the ledges stick up out of the eroded ground on either side of them, and these ledges contain thousands of tons of shipping ore that only requires the use of a pick and shovel to sack and send to the mill.

The new townsite now contains about 10 tents and three frame buildings. The townsite company's well is being put down as rapidly as possible.

The first accident in the camp was that of a man whose foot was crushed night before last. The well gang tamped off a heavy blast in the bottom of the water shaft, and a huge piece of rock crashed into a tent where he was sleeping and mangled his foot badly. He was sent to Virginia City to a hospital.

Carson City men are filling the camp and many of them have promising claims on which location work is being done.

The name of the camp is the jumper, the man who relocates a piece of ground as soon as the time expires on it, having a perfect right to do so; and the man that locates wherever he thinks he has a chance to perfect a claim to the ground in question.

Many conflicts in interest are alive in the camp, and these conflicts are retarding the work. As soon as they are settled, the owners of the claims and ledges are going to work on actual development.

There seems no question that Ramsey is about to become one of the biggest camps in the country.

Two horses with buggies attached ran away Sunday and smashed up the buggies. They took flight down the street immediately on hearing the terrific claps of thunder that broke over the city about noon.

Salt Lake is talking about another railroad, across country to Ely.

J. L. Wines, of Butte county, Cal., is in this city after an absence of twelve years. He is an attorney of note in California.

Sen. W. A. Clark, in a speech in Salt Lake, advised the merchants of that city to get busy and corral the rich business of Nevada.

A new hoist on the Pinenut mine at Manhattan will be broken in this week.

The capitol park is a haven of rest for weary prospectors and mining men who come to this city to take a rest and a cool off. After a few weeks in the desert, green trees and greener grass look good to these men.

A fool preacher and a fool girl in Los Angeles announce the gift of tongues has been given the girl through the ministrations of the preacher. She gabbles all right but no linguist can identify the language.

A new line of Eastman Kodaks has arrived at Kitzmeyer's drug store. Just the thing for campers and to take on a vacation trip.

## FIRST SHOW SINCE THE BIG EARTHQUAKE

The success of the Chinese musical comedy, privately presented a few weeks ago by the Leisure Hour club, has induced the club to give it a much more amplified presentation at the opera house.

They have added several choruses and drills, with new musical numbers and a few local hits, so that it will keep and audience entertained for nearly two hours. Some thirty people will take part and the beauty and talent and musical ability of the city has been taxed to make a combination that will look mighty good to the audience when it gathers at the opera house on Friday evening, Aug. 3d.

Such a lot of handsome chorus girls never appeared before on that same stage. The ladies are all busy on gorgeous costumes, Chinese settings and paraphernalia of the celestial kingdom galore.

The dramatic reporter of The Appeal has witnessed a rehearsal and can safely recommend this attraction to the Carson City public.

We have had no dramatic entertainment since the San Francisco fire, and this home talent proposition should be greeted with a packed house.

The proceeds will start the ball rolling toward getting a new club house for the Leisure Hour people.

### PROF. HOWE EXPLAINS

Editor Appeal:

On my return from Reno recently I was much surprised and grieved to learn that I had been quoted by your reporter in such a manner as to create the inference that I severely criticised the members of the recent school board because they had not advertised for bids for assembly chairs.

The impression has doubtless gone forth that I have identified myself with those who have charged the old board with fraud, graft, etc.

I have been associated with Mr. Meder in school matters for sixteen years, with Mr. Stewart for ten or twelve years, with Mr. Cutts for eight or ten years, and to the extent of my knowledge their honesty and integrity cannot be questioned.

As to the failure of the board to advertise for bids for the assembly chairs, I have said several times that it is an unfortunate omission.

I am confident, however, that thorough investigation, which I understand the old board now to demand, will clearly establish the rectitude of their intentions.

Respectfully,  
H. H. HOWE.

July 23, 1906.

### MISS MARTIN'S ACCOUNT

Editor Appeal:

In The Appeal of Friday, July 20, you ask to what has become of the money subscribed for the opera chairs in Assembly Hall at the school house.

Of the amount subscribed I have received \$245, and of this sum I have committed to Whitaker, Ray Co. (upon the advice of Mr. Meder) \$200 in two different amounts, \$100 March 28th, \$100 May 2, leaving a balance of \$45 in my possession to be disposed of as the trustees see fit.

I was made custodian of these funds simply because I was bookkeeper at The News office and it was convenient for those subscribers to drop in at that office and pay the amount.

These payments were noted in the minutes of the board June 30, but, as no specification was made of the funds from which they were drawn, the public had no opportunity of knowing that it was the subscribed fund.

Yours truly,

ANNIE H. MARTIN.

Carson City, Nevada, July 23, 1906.

## MUST WE FIGHT THE MEXICANS?

OF A MAN WHO IS OFFICIAL OF  
MEXICAN RAILROAD SAYS  
UNITED STATES CAN'T AVOID  
IT.

FORT WORTH, Tex., July 23.—E. J. Mather of Ohio, an official of the Mexican National railroad, who is here enroute home, says that war between the United States and Mexico is inevitable.

He says the Americans, Germans and Englishmen hold the best positions in Mexico, and that the jealousy of the natives has been aroused by this fact.

The hatred for Americans is growing, he says, and the government is unable to cope with the situation.

He declares that conditions are likely to cause war within six months.

## POLICY HOLDERS NOW HAVE A CHANCE TO VOTE

On the 15th of December of this year the Equitable Life insurance company of New York will elect new directors. Under the new insurance law of New York Section 94, the insurance company must keep a list of its policy holders in each state in the union, open to inspection at any time during business hours to any bona fide policy holder.

This list is now on file at the office of Insurance Commissioner Davis and can be seen by any policy holder. Also the names of the candidates on the two tickets to be voted for. Any Nevada policy holder has the right to select one of these tickets and vote it by mail between now and Dec. 15th. This election gives policy holders in the Equitable two chances to vote this fall.

Henry T. Gage has thrown down the machine in California and declines to run for governor of California on the republican ticket. He had the office once and refuses to be unseated again.

A party of mining men will leave for the Pinenut district this evening in an auto.

The crew in the V & T. car shops is working overtime on the new train for the Minden extension.

The Park theatre will open a week from tonight. It will be of the variety kind and is a branch of the Orpheum vaudeville circuit.

### PARENTS SHOULD KNOW

If your children's eyes are defective in vision, it becomes criminal neglect to refuse them protection from strain and nerve drain. Immediate attention may save your child much misery and yourself future regret. Examination FREE. Dr. Goldberg, Graduate Refractionist, Room 36, Park Hotel.

### SHIRT WAIST HOP

The Junior '04 class is out with invitations to a Shirt Waist hop to be given at Armory Hall, Tuesday, July 24.

Have you registered. The register closes this year on September 10th.

### ICE RIOT IN NEW YORK

NEW YORK, July 23.—Five hundred men, women and children took part in a riot on the East Side, during which they made a raid on the wagonload of ice intended for free distribution among them, and took every pound in the wagon.

## WHY DON'T YOU REGISTER?

The following is taken from the Goldfield Sun and is reprinted in The Appeal in order that it may be given the widest publicity, to which, by its merit it is entitled.

It applies equally well to this county.

### "WHY DON'T YOU REGISTER?"

The registration of voters in this precinct is deplorably slow; it is not because the voting population has decreased but, probably, may be credited to the natural laziness of the average citizen who procrastinates himself out of a vote, in many cases at last.

Whether you registered for the last election or not you must register between now and the first of September or you will not have any more vote than a jack rabbit. The law requires it and the books are open at the office of the Justice of the Peace every working day of the week waiting for your registration.

It will not take much of your valuable time to throw a diamond hitch over your electoral franchise, so get in and show what a good citizen you can be. It would be a good idea when you go to the registration office to register to take your neighbor along for he too has probably been just as delinquent as you have been. Don't wait for him though, but register for yourself anyway and then keep bragging to him that you will have a vote and he will not—unless he bestirs himself. That will bring him in.

It would be too bad if when election day came you were not in a position where you could cast a vote for the men who you think would make the best office holders among the candidates. If you don't get busy you will be shut out and be of just as much use to your party as the Car of all the Russias would be. It is generally understood how useless he is all along the line.

It is easy to criticise our state and county officers; our delegation to congress and its alleged shortcomings; the incumbent at the white house or the candidate who aspires to the honor but unless you take interest enough in the country's affairs to register you have no more right to poke sticks at the animals than a chinaman has to criticise the mining laws.

What if you are busy. Just stick those pieces of quartz in your pocket for a few minutes and tell your friends what the ore will assay after you register. The news will keep. Now is the time to register.

### ORE SHIPMENTS

The ore shipments over the Tonopah railroad for the week ending Thursday night, as reported by the Western Ore purchasing company, aggregated 32,990 tons, divided as follows: From Tonopah—Tonopah company, 960 tons; Tonopah Extension, 445 tons; Belmont, 257 tons; Midway, 60 tons; Montana-Tonopah, 8 tons; North Star 62 tons. From Goldfield—1360 tons. From Lone Mountain—Nevada Alpine, 39 tons. Sundry—25 tons.

### QUESTION OF SKILL

Dr. Goldberg's lenses are not a question of merchandise, but are simply a question of skill and ability to fit the eyes. Examination FREE. Room 36, Park Hotel.

Lost—Between Golden's jewelry store and Kitzmeyer's drug store, a pocket book containing two five dollar gold pieces. Finder will be rewarded by returning it to Mrs. J. P. Sweeney.

Have you registered. The register closes this year on September 10th.

## FIRE & MARINE INS. CO. FAILS

The Fire and Marine Insurance company of San Francisco announced Saturday that it would be compelled to suspend business and wind up its affairs. It was heavily interested in San Francisco and the fire proved too much for it.

The State of Nevada carried a portion of the insurance on its buildings in this company but its agents here have agreed to put the risks with other companies and the state will lose nothing by the failure.

A few weeks ago when new three year policies were taken out by the state, the governor and the insurance commissioner entered into a compact with the various agents representing the fire insurance companies, making all policies subject to cancellation as soon as it was known which are the "six bit" and which the solvent companies, and the agents gave their personal guarantee that they would refund pro rata on all such cancelled policies.

## "THE SAGE BRUSH LILY"

This delicious little bit appears in "Progressive West," July number.

By Lou Spencer Ellis, Carson City. Bend low, blue skies, o'er desert land.

Where hides beneath the gray-white sand. An angel soul in flower guise.

Held fast in thrall by unburst ties.

Speed with your wooing, radiant sun, Most softly kissed she may be won. Bring all your magic, dew-drop sweet! Haste with your charm for time is fleet.

Then sagebrush beauty, waxen white, Unfold your petals to the light; With perfumed face, upturned to heaven, Join in the chorus, "Christ is Risen!"

### A MINER'S LUCK STORY

N. H. George, Santa Fe yardmaster has taken a lay off for three weeks and gone to Nevada to develop a gold mining claim which he has there. There is quite a story back of it's going.

Mr. George grubstaked an old miner has taken a layoff for three weeks. This miner finally found some excellent surface indications in the Nevada mountains and staked off a claim. The prospects were so good that Mr. George, his brother and his brother-in-law took three adjoining claims. The old grizzled miner worked away all winter on the funds supplied him by Mr. George. His developments were encouraging but he did not pan out large quantities of the yellow metal.

A short time since, another old miner in hard luck, came past this first miner's claim carrying his kit of tools with him. Mr. George's friend was naturally lonesome and invited the stranger to take a claim, and after looking over the situation the stranger decided to do so. An evening or two later the two miners sat on a ledge of rock talking when a badger came into sight. The miners gave chase and the badger ran into a hole on the stranger's claim.

They went to work with their picks and soon dug the badger out and in doing so they made a remarkable discovery. His bed in the bottom of the hole was made on a big chunk of the very richest of gold bearing ore. The gold in the stone on which he lay is worth \$10,000. In this way they discovered a rich vein of gold bearing quartz which runs through both their mines as well as those belonging to Mr. George, his brother and his brother-in-law. Mr. George's trip to Nevada is for the purpose of investigating his new gold mine. Washington Mail.

FOR SALE—A good second hand bath tub for sale cheap. Formerly \$27, now \$10. Inquire this office.

## BREVITIES

The Humboldt county republican convention will be held on July 28.

The children at the Orphans' Home will be given an outing at Bowers Mansion.

T. O. Berry has been appointed a guard at the State Prison.

A lot of sunburned men are walking around this city today; the trip to Ramsey is a hot one all right.

Nothing can excite a community like a handful of yellow gold taken from the ground. It looks better even than the coined variety.

An incendiary fire in Elko threatened the town. The incendiary is under arrest.

Work has been started on the huge copper deposits in Ely and the mine buildings and mads will soon be erected.

Rat Nichols, Percy Gardner and a party of mining men, returned from Mountain House last night in an auto, from a trip of inspection.

A number of Carson City people went out to Pinenut yesterday to look up claims in that district, the find on the Last Chance causing them to sit up and take notice.

The Carson City garage is overwhelmed with orders for autos to take men to and from Ramsey.

Two men were sent out this morning to work on the Sweeney lease at the Last Chance mine, where a pocket of \$200 was found last week.

Nearly every man that knows a piece of ore from a brickbat is busy today homing samples taken from ledges in Ramsey and elsewhere Saturday and Sunday.

The new hatchery is beginning to assume shape. It will have ten propagating troughs and a nursery trough for weak fish. In addition to these will be drain troughs, reservoirs for fresh water and all the accoutrements for a first class hatchery.

Work on the platting of Valley Park is going on steadily.

The painters and decorators at the railroad shops are busy at work on the new cars for the Minden extension train.

Gro. Mills, "Water" Mack, Jim Rayercraft and Dr. Goode, to say nothing of a Japanese cook and the necessary dogs and fishing tackle will be hauled out to Hope valley tomorrow or Wednesday, for a two weeks vacation.

Donald B. Gillies is now superintendent of the Tonopah Extension mine, vice John McKane.

Every available man is at work at Tinsacora, where a revival in mining has taken place.

Governor Sparks, James Taylor and Capt. Fenchler are in the wilds of Elko county on a hunting trip.

Leasers in Goldfield made five big strikes within three miles of each other and within 48 hours.

Scotty, of Death Valley fame, has appeared in Lida with a mule pack train carrying ore he says will net him \$150,000.

Water was struck on the 180 level of the Union No. 9 at Manhattan last week and a pump will be installed. The strike solves the mill problem.
